## Trochu-Olds Provincial Highway Aim Of Trochu Board Of Trade

The first intimation we have had for some time, that of a first class gravelled road east from the Calgary-Edmonton highway near Didsbury, appeared in the Calgary Albertan last week when the Trochu Board of Trade and the Mayor of that town conferred with the Drumheller Board and Mayor Swain of the coal city with a view to getting concerted action in the matter of having the Trochu to Olds road made a grade B provincial highway.

A. B. Claypool, M.L.A., Didsbury, stated that he favored the Didsbury-Three Hills road be made a class B highway. The Trochu delegates point out that the Trochu to Olds road would save travellers from the southeast 14 miles and that in addition large portions of the Trochu-Olds road were ready for graveling.

It is understood that a delegation from Trochu is to interview Hon. O. L. McPherson, minister of public works. Unless Didsbury and Three Hills get together and present the merits of their case Mr. Claypool's hope may not be realized. If the Trochu road will be the best and cheapest highway to construct, then that should become a provincial link—only if it surpasses the Three Hills-Didsbury highway in those respects. The government engineers no doubt will have something to say about that. The whole is a matter which must be gone at carefully, and to the best interests of this section of the province.

## District Tennis Tourney At Olds

A tennis tournament, embracing the neighboring towns to Olds, is to take place on the Olds' courts on September 1 and 2. Four towns in the Tennis Association are to be represented, Olds, Red Deer, Innisfail and Delburne. Other nearby towns are invited to take part in this official tourney. The entry fee is \$1, and silver cups will be awarded the winners of the various matches.

It is hoped that Didsbury may be able to send up a contingent and those wishing to take part will get in touch with the Secretary of the local club, at the Pioneer Office by August 30. Transportation will be required for Didsbury players.

Mother love can't make a boy wash his neck, but puppy love can.

## Another Town On C. & E. Line Adds To Its Utilities

By a vote of 160-10 the ratepayers of Lacombe Friday last, granted the Calgary Power Co. a 10-year franchise for the supply of water to the town. The company will commence operations within ten days and will have the system in operation by October. The water supply will be obtained from deep drilled wells and the distribution will be by means of pressure tanks. The agreement calls for the installation of 27 fire hydrants. The by-law presented at the same time empowering the town to instal a sewer system also carried. The installation of both systems will be carried on together. The town is in the fortunate position of being able to put in the complete sewer system without the issue of bonds, having sufficient cash on hand to pay for the utility outright.

Mayor Jackson, who for the past two years has worked hard to provide Lacombe with water and sewer, is receiving the hearty congratulations of the citizens on the successful outcome of his efforts.

## Children's Sports Day Meeting Called For Next Monday

A meeting has been called for Monday evening, August 19, in C. E. Reiber's office, of local merchants and other citizens interested in the annual sports day. The first event of this kind was staged last year on August 22 and was an outstanding success. Everything for the children was absolutely free, ending with a picture show in the evening in the Opera House.

## WEDDINGS

Mr. Dale Kimmel of Carstairs, and Miss Ruby Hunsperger, Didsbury, were married at Knox United Church, Calgary, Tuesday, August 6th, 1929, by Rev. J. K. Clarke. They will reside on the groom's farm east of Carstairs.

The bride has been a resident of Didsbury for many years and the Pioneer joins with a wide circle of friends in wishing the happy couple a long and happy wedded life.

## Didsbury Fair Biggest In Years

Entries Number 300 More  
Than Last Year

'Bigger and better than ever,' is no mere catch phrase when describing the 26th annual exhibition of the Didsbury Agricultural Society, held yesterday. The attendance was good and the gate receipts satisfactory although not quite as large a crowd was on hand as last year. This no doubt was due to the earlier harvesting of the grain crops following the hot summer.

In all classes the number of entries was considerably in excess of former years and the Secretary's office presented a busy appearance the days this week preceding Fair Day.

Thirty more entries of horses were on the list than last year. J. Haggerty of Olds and T. Pratt of Didsbury being among the list of heavy winners, as in former years R. Fulkert won the grand champion female Clydesdale. In an exhibition jump one of Mr. Fulkert's thoroughbreds, 3 years old, made five feet.

The big prize winners in the cattle section, in which there were 30 more entries than last year, typifying possibly the great progress of the dairy industry in the Didsbury district, were B. Lyons, T. Pratt, Brennan Bros., A. Reddon, and L. S. Fisher, Olds. Mr. Westfall and Hughes Bros. excelled in sheep while D. Dippel and S. Weigand gained a large number of prizes in the swine entries. The poultry section was also good in quality of exhibits although the number of entries was not large.

The Dageford's took a large number of prizes for their fine exhibits of grains and grasses.

Deserving of special mention is the home products section in the exhibition shed, of which there were more than 200 entries alone. In this department the Vauthrin family of Bowden excelled. The fancy work and art exhibits occupied a large corner of the building there being over 200 fancy work entries. The display of flowers was not large but evoked considerable attention.

In the country teams baseball tournament Beaverdam defeated Westerdale, Rosebud defeated East Community, while in the finals Beaverdam chalked up 9 runs to Rosebud's 8. The main baseball game in the evening between Olds and Didsbury resulted in 15-9 in favor of the former, four innings only being played.

A list of the prize winners and races will appear in next week's issue.

Twelve smashing, thrilling wonder scenes—and the biggest train wreck you ever saw. Dorothy Mackaill and other stars in "The Whip," at the movies, Wednesday, August 21, 8:30.

## OBITUARY

On the afternoon of July 30th, 1929, there passed away at her home, Myrtle Alice, beloved wife of Charles A. Foss, Didsbury. After a lingering illness of three years the end came as a great release to one who had suffered so constantly. Her cheerfulness and unselfishness during this time has been a source of wonder to all who knew and loved her.

Mrs. Foss was born in Grafton, Iowa, November 5th, 1869, later going to Leola, S. D., where in 1894 she married Charles Augustus Foss. To them was born one daughter, Vivian. In 1901 Mr. and Mrs. Foss came to Alberta and homesteaded thirteen miles west of Didsbury where they have made their home for the past 28 years.

Mrs. Foss leaves to mourn her loss, her husband, daughter Vivi-

## MANY CHANGES IN 1929 HIGH SCHOOL CURRICULUM

High school students in Alberta will do work on a somewhat different basis hereafter, beginning with the new fall term.

Changes in the curriculum have been decided upon and are now being incorporated in the regulations for 1929-30. They are the outcome of a review of the present curriculum by a special committee appointed for the purpose some months ago.

No change will be made in the number of units required for junior matriculation and entrance to Normal for the second class certificate.

The survey revealed the fact

that several of the units are properly weighted at the present time, but a considerable number need lightening, and that some four or five require stiffening up.

The following units remain unchanged: composition 1 and 4, history 1, algebra 1 and 2, French 1, agriculture 1, household economics 1 and 2, manual arts 1 and 2, geography 1, arithmetic 4.

The following units have been increased in difficulty: composition 2, agriculture 2, history of English literature, chemistry 2, biology 1.

The following units have been

(Continued on Page 8)

## Fifty Years of Progress

Locomotive number 5900, greatest in the British Empire, one of a fleet of twenty for use on the heavy grades of the British Columbia mountains, has just been released for service on the Canadian Pacific Railway. Oil-burning and weighing close on three-quarters of a million pounds with engine and tender and having a length of 98 feet over all, it furnishes an overwhelming contrast with the wood-burning "Countess of Dufferin" which came to Winnipeg from Minneapolis, fifty-two years ago next October.

Tractive effort of the Countess was 9,000 lbs., as compared with

that of 78,000 lbs. of the 5900. The latter represents the latest developments in locomotive engineering and was built to specifications furnished by the motive power and rolling stock department of the Canadian Pacific Railway.

and her aged mother, Mrs. A. J. Swingle; four brothers and three sisters: Orin O. Swingle, Rose-dale, B.C.; Walter A. Swingle, Didsbury; Gala R. Swingle, Burbank, Calif.; Leroy V. Swingle, Calgary; Mrs. Roy Warren, Mrs. Hugh Ross, Mrs. Ralph Honey, Didsbury.

The funeral service was conducted by the Rev. A. E. Hayes in the Westerdale United Church. The large attendance testified to the number of friends Mrs. Foss had in the community, while the beautiful floral tributes gave mute evidence of the high regard in which she was held by these friends. Interment took place in the Westerdale cemetery, two brothers, one

nephew, and the three brothers-in-law acting as pallbearers. Flowers were sent by the following:

The Family, Orin and Laura, Orvin and Lydia, The Ross Girls, Mr. C. D. Carver, Ellis and Eleanor, Mr. and Mrs. Stanley Brown and family, Mr. and Mrs. J. K. Whiteside, Mr. and Mrs. Carlson, Westerdale Ladies' Aid, Beryle and Harry Hayden, The Ruby family.

Yesterday a lowly subway guard—today the talk of town—all because of an accident that never happened—that's how it starts. See "The Big Noise," with Chester Conklin and Alice White, at the Didsbury Opera House, Saturday, August 17.

"WHERE QUALITY AND PRICE MEET"

# Acid Stomach

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips' Milk of Magnesia neutralizes instantly many

times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer, when you learn how quickly, how pleasantly this premier method acts. Please let it show you—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

## The Right Community Spirit

Every once in a while in the strenuous, and more or less selfish days of this modern, highly organized period of the world's history, some little incident of downright unselfishness, of the practical application of the Golden Rule, comes to light which does all good who hear of it, and revives our belief in the innate goodness of the majority of our fellow men, a belief which is frequently in danger of being wholly destroyed when we read of so much deceit, dishonesty, cruelty and crime.

Such an incident, causing a warm glow in our hearts, occurred in the Carievale District, of Saskatchewan, a few weeks ago. When Stanley Dugan and his eldest son, Garfield, died within three months of each other, leaving Mrs. Dugan and eight small children, the neighbors decided to help put in the crop. Therefore, on a given day, eighteen tractors gathered at the Dugan farm and plowed 160 acres in seven hours. The following day other neighbors harrowed and seeded the field. Neighbor women provided the "eats" for the "bee." While the "bee" was organized and managed by the Carievale I.O.O.F. No. 20, it was carried out as a community enterprise and is typical of the community spirit which prevails in the Carievale district.

It was this same spirit that animated the early pioneers in Eastern Canada who joined forces in conquering the virgin forests, built roads, schools, churches, grist mills, and in one "bee" after another assisted each in turn to build houses and barns. And when this "last great west" was opened to settlement, the same spirit prevailed, neighbor assisting neighbor through their difficulties, and in times of sickness and disaster. Only so was the settlement of Canada made possible, and the foundations laid for the successes of today.

It was the cultivation and practice of this neighborly community spirit of self-sacrifice and co-operation which established for the West its reputation of open-handed friendliness and generosity. But as population increases, cities and towns grow up, modern means of communication expand, the vacant spaces fill up, and a more highly organized and mechanical development takes place, there is danger of this fine old feeling of neighborliness disappearing. It would be a pity if this should happen, and it is vastly encouraging to learn of such a happening as that at Carievale.

And if we are losing something in actual practice of the community spirit in our larger centres of population, it is gratifying to know that it still prevails in the hearts of Western men and women. It is as strong as ever in the more remote and pioneer districts of the West, finding expression in the building of small community hospitals and Red Cross Outposts, in community clubs and halls, homemakers' clubs, and numerous co-operative efforts for the welfare of all, regardless of race, language, creed, or worldly possessions.

Helpful as the neighborly assistance extended by the people of Carievale district undoubtedly was to the bereaved Widow Dugan and her children, alleviating her sorrow and removing worry from her mind, we venture to say that those who participated in extending that assistance found a glow of satisfaction, a joy, in rendering this service far greater than any realized by them from any successful venture undertaken in their own behalf.

Furthermore, the neighborly spirit and co-operation thus displayed, and the uniting of forces in the performance of a splendidly unselfish effort, cannot fail to leave its impress upon the whole community. It must inevitably make easier the settlement of those little disagreements and differences of opinion which arise in all communities regarding school, church, municipal, and other local affairs. It means that not Widow Dugan alone, but the whole community has benefited, because the right kind of a community spirit burns more brightly than before.

### Find Canadian Wood Useful

#### London Firms Using Mill Waste For Making Linoleum

That shavings and other planing mill waste are being used experimentally in the manufacture of linoleum, in place of "wood flour," which is at present imported from the continent, was revealed in the annual report of the Department of Scientific Industrial Research, issued at London, England. The report dealt in particular with the development of the empire's timber resources. One London firm sought a suitable wood to make boot lasts. The department experimented and finally recommended that Canadian or home-grown birch would serve the purpose.

### Sunburn

You'll sleep in comfort if you apply Minard's.

W. N. U. 1796

### A Golf Triumph

#### First Amateur To Make Par On Famous Jasper Golf Course

For the first time in its history, an amateur has played the famous Jasper Park Lodge Golf Course in par. The triumph belongs to B. Tait, of Pasadena, California, scion of one of the most noted golf families of Scotland. Par for the Jasper Golf Course, where the Canadian Amateur Championships will be played in August, is 70.

Mr. Tait's first visit to Jasper was a quarter of a century ago, when, as a surveyor he went through that country in advance of the railway.

#### Agricultural School For Lethbridge

Development of the plan to establish an agricultural school in Lethbridge with the Federal Experimental Farm at Lethbridge, Alberta, as the basis for the practical demonstrations, is being proceeded with, according to Hon. George Hoadley, Minister of Agriculture.

#### Sugar Beet Crop

Sugar beets in Southern Alberta, are making good progress. Indications are that there will be about 8,500 acres thinned this year, spring losses being less than last year.

### Women Control Wealth

#### About 41 Per Cent. Of Individual Wealth Of U.S. Held By Fair Sex

Approximately 41 per cent. of the individual wealth of the United States is controlled by women, so a recent bank survey shows. Should this proportion increase at the present rate, financial patriarchy would be established by the year 2025. Women are receiving 70 per cent. of the estates left by men and 64 per cent. of the estates left by women. In addition they are the beneficiaries of 80 per cent. of the \$95,000,000,000 worth of life insurance policies in force in this country. According to income tax reports the majority of incomes of over \$100,000 are in feminine hands, while over 41 per cent. of the entire income tax is paid by women. As a result of their financial ascendancy women comprise an actual majority of stockholders in the largest corporations in America, and constitute from 35 to 40 per cent. of investment house customers.

### A TIRED OUT FEELING

#### Is a Sure Sign That the Blood Is Thin and Watery

"I am glad to have an opportunity of testifying to the benefits I derived from the use of Dr. Williams' Pink Pills," writes Mrs. Lawrence Kennedy, St. Joseph, N.B. She further says: "Some years ago I was working as a stenographer, and became badly run-down. I always had a tired-out feeling, had no appetite and suffered terribly from backache. Almost every month I had to remain from the office for a day or two. I was advised to try Dr. Williams' Pink Pills, and I have reason to be glad that I followed this advice. Before I had been taking the pills very long I began to feel much better. Continuing their use my strength came back, I regained my appetite and the terrible backache from which I had suffered disappeared. I have been married some years now and have two fine healthy children, a girl and a boy, and am in the best of health. All this I owe to Dr. Williams' famous Pink Pills, and I trust that these few lines may help some other weak, run-down person."

All weak, run-down people who will give this blood-building tonic a fair trial will find through its use new health and strength. You can get the pills from any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A scientist has discovered that housecleaning is caused by a microbe.

A total of 576 films was shown in Finland in 1928. Of this number the United States supplied 364.

### Chief Submarine Disasters

#### Appalling Loss Of Life In Last Fourteen Years

Submarine disasters have taken a heavy toll of life in the navies of the world. Some of the major accidents to undersea craft follow:

March 24, 1915—United States submarine F-4 sunk in Honolulu Bay, loss of life 21.

1921—British submarine K-5 disappeared off the Scilly Islands while in diving practice, 57 dead.

March 23, 1922—British submarine H-42 sunk by a British destroyer near Gibraltar and 26 men killed.

August 21, 1923—Japanese submarine founded beside a dock at Kobe, Japan, 85 dead.

January 10, 1924—British submarine L-24 sunk by British battleship, Portland, England. Death list 43.

March 19, 1924—Japanese submarine sunk by Japanese battleship off Sasebe, Japan, 49 dead.

September 25, 1925—U.S. submarine S-51 sunk off Block Island, R.I., by steamer, "City of Rome," 33 dead.

December 17, 1927—United States submarine S-4 sunk off Provincetown, Mass., by coastguard-cutter Paulding, 40 dead.

August 6, 1928—Italian submarine F-14 sunk in Adriatic Sea in collision with destroyer, 31 dead.

July 9, 1929—British naval submarine H-47 collided with the British submarine L-12, 22 miles off the coast of Pembroke, Wales, in the Irish Sea, 24 lives lost.

The worst post-war British submarine disaster recorded took place in 1925, when the H-1 was sunk off Star Point with the loss of 68 lives.

### Many British Premiers Came From Scotland

#### Ramsay MacDonald Makes Fifth In Last Thirty Years

The Scotch appear to have a strong hold on the British premiership.

J. Ramsay MacDonald is the fifth prime minister from Scotland in thirty years. The others were Lord Roseberry, Sir Henry Campbell-Bannerman, Earl Balfour, and Bonar Law.

During the same period, the Welsh have had one premier, David Lloyd George, and the English two, Lord Salisbury and Stanley Baldwin.

### Keep Minard's Liniment always handy.

"Dad, what are ancestors?"  
"My boy, I'm one of yours and your grandpa is another."  
"Well, then, why do people brag about them?"

## ATTENTION, WOMEN OF MIDDLE AGE!

### Mrs. Goodkey Tells Her Experience with Pinkham's Compound

Byemore, Alberta.—"The Change of Life was the trouble with me and I was run-down, thin, and weak and could not sleep, had a poor appetite and could not do much work. I am taking Lydia E. Pinkham's Vegetable Compound now and I feel like a well woman. I saw it advertised in the papers and tried it and Lydia E. Pinkham's Sanative Wash. I have recommended it to a lot of women friends." Mrs. Wm. GOODKEY, Byemore, Alberta.

### Northern Alberta Railways

#### Two Transcontinental Railways Take Over Lines In Alberta

On July 2nd last, the four Alberta Government-owned railways—the Edmonton, Dunvegan and British Columbia Railway, the Central Canada Railway, the Alberta Great Waterways Railway and the Pembina Valley Railway—were taken over by the Canadian Pacific and the Canadian National and merged into one concern to be known as the Northern Alberta Railways.

### LONG SLEEP MAKES BABY HAPPY AGAIN

"Our baby kept waking us several times a night, until we started giving him a little Castoria after his last nursing," says an Iowa mother. "He slept soundly from the first night and it made him look and feel worlds better." Baby specialists endorse Fletcher's Castoria; and millions of mothers know how this purely-vegetable, harmless preparation helps babies and children, with colic constipation, colds, diarrhea, etc. The Fletcher signature is always on the wrapper of genuine Castoria. Avoid imitations.

"Von" Is Not Title  
Prohibition of the use of titles in the post-war republic of Czechoslovakia does not apply to the word "Von," an approximate social equivalent to the English "Sir." The constitutional supreme court ruled in the case of Ferdinand Zdenko Von Lobkowitz, the Czechoslovak minister of interior, that the "Von" was part of a name and not a title.

## WINDOLITE

### The Improved Glass Substitute

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 lbs., while a square yard of glass of ordinary thickness, weighs about 135 to 140 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

## Beautifying the Grounds Surrounding Rural Schools By Planting Trees and Hedges

At the beginning of this century when in the face of much indifference and no little opposition the Department of the Interior through its Forest Service, began the distribution of free trees to farmers in Western Canada, the chief objects were to make the prairie farmsteads more homelike and comfortable and the farms themselves more productive. In the nearly thirty years that have elapsed since then, because of a realization of the widespread benefits of prairie tree planting, apathy and opposition have given place to enthusiasm and support of this policy. The annual distribution has grown from a meagre 50,000 trees in the first years to approximately 8,000,000 seedlings and cuttings at the present time. Reports show that a large percentage of the new shelter-belts set out are successful and travellers are constantly noting the change in the appearance of large sections of the prairies through the planting of these trees.

The Department distributes forest trees exclusively and, as has been frequently noted in recent years, the effect has been to encourage the development of orcharding and the growing of small fruits and tender vegetables which formerly, it was thought, would not grow in the Middle West. Another very pleasing change which has followed the general adoption of the plan of tree planting on farms has been the improvement in the grounds and surroundings of rural schools on the prairies. Naturally the improvement of school grounds is a much more difficult matter than that of planting groves around farm homes. The chief difficulty, of course, is the constant changing of teachers and of rural school trustees. Added to this is the fact that school vacation occurs at the very time when in the first three years after planting, the trees require attention in order to ensure their subsequent growth.

In spite of these handicaps a great deal has been accomplished. In the province of Saskatchewan there are approximately 4,800 rural schools and of these 1,098 have applied for and received trees from the Forest Nursery Stations at Indian Head and Sutherland. While the proportion of plantations which have become permanently established on school grounds is not so high as in the case of those on farms, the results on the whole are decidedly encouraging.

The average prairie school with its bare surroundings is anything but inspiring and it is not difficult to realize the effect such conditions must have on the impressionable minds of the young children who necessarily spend so much of their time there. If every rural school could be surrounded by an attractive setting of trees, shrubs, and flowers the ultimate value to the community and the country as a whole would be inestimable.

That the handicaps under which the average school labours in respect to the improvement of the surroundings can be overcome is evident from the record of those that have been successful. In some cases the success has been outstanding and in such it is generally evident that the community as a whole has taken special pride and interest in the school, that there is close co-operation between the trustees, the teacher, and the neighboring farmers, and that all are interested in seeing that the trees receive the necessary attention. In such localities the school grounds become a community centre and are used for picnics and other gatherings thus proving a valuable asset in the general development of the district.

### Indian Lands Sold

Prices averaging \$20 per acre were paid for the lands comprising the Indian Reserves adjoining the towns of Berwyn and Fairview, in Alberta, disposed of recently by the Department of Indian Affairs. The highest price recorded was \$40 per acre paid by a Saskatchewan buyer for three quarter sections in the Beaver Reserve near Fairview.

W. N. U. 1796

### Tuberculosis Free Area

#### Some Delay In Creating Disease Free Area In Manitoba

There has been a delay in starting on the new tuberculosis free area in Manitoba as a result of a technical difficulty which has arisen. The present area centres around Carman and it is now proposed to extend it north to Lake Manitoba, taking in a strip of territory about 50 miles in width and embracing the Portage Plains farming district.

The farmers in the area to be included in the disease free territory have sent the necessary petition to the Provincial Government asking that this be done, but the federal regulations apparently require that a formal request for the creation of a disease free area be sent to Ottawa by the Provincial Minister of Agriculture. This has not been done in the present case. The Federal Department of Agriculture has received an informal request by letter from J. H. Evans, Deputy Minister of Agriculture, but the formal application from Hon. Albert Prefontaine has not yet come to hand.

Until it does the Federal Department cannot begin the work of cleaning up new territory. In the meantime, therefore, the inspectors have been sent to central Saskatchewan where a new disease free area is being created in the Last Mountain district.

### A High Flag Pole

#### British Columbia's Tallest Spar For Toronto Exhibition

Carrying on her deck, what is said to be the tallest spar of Douglas fir shipped out of British Columbia, the Canadian National Steamship, "The Canadian Ranger," reached Montreal, recently from Vancouver, via Panama. This spar is 186 feet in length, measures 36 inches at the butt and is ten inches at the top. It weighs 25,000 pounds, and contains 5,000 feet board measurement. It was cut by the Timberland Lumber Company and forwarded as a gift to the Canadian National Exhibition, at Toronto.

"My husband wants you to change a \$20 bill for him."  
"With pleasure. Where is it?"  
"He will probably send it in the morning."

Diner: Here! Stop spilling that soup on my coat.

Waiter: Don't fret, Sir! We have plenty more in the kitchen.

### PRINCE'S TROPHY

The only trophy presented by His Royal Highness on the continent of America, the Prince of Wales Cup, will be the prize offered to golfers who compete at the Banff Springs Course, September third to sixth next. Competitors will mainly be drawn from among those taking part in the unique golfers' tour of Canada, sponsored by the "Canadian Golfer," which starts out from Toronto, August 12, and goes to Victoria and return. On the outward trip the tour will stop over at Winnipeg, Jasper and Vancouver, and the return journey will be by the Canadian Pacific scenic route through the Rockies via Revelstoke and Field, motoring to Lake Louise and Banff, and resuming the train trip through Regina, Winnipeg and Fort William, arriving at Toronto September 11.

### Heavier Production Of Flour

#### Grain Absorbed To End Of April Shows Big Increase

The improvement in the production of flour and other cereals by the milling industry of the Dominion this year reflects itself in heavier purchase on the part of the industry of wheat and coarse grains. To the end of April, being the first nine months of the grain year, the producers had absorbed a total of 72,521,270 bushels of wheat, or nearly 6,000,000 bushels more than a year ago. Grinding of oats involved 8,838,173 bushels, or about the same volume as last year.

### Early Vegetables Shipped

Ten car lots of early vegetables moved out of Vernon, B.C., on July 3rd, chiefly potatoes, beets, carrots and cabbages. Royal Anne cherries are going out in large quantities to Mission and to the Pacific coast canneries south of the line. The quality of the fruit this year is excellent.

When a man marries he thinks he is getting a mate, but often the supposed mate turns out to be a captain.

## Luxury In Travel Attains The Apex Of Achievement In These Modern Days

This is an age of more luxury in everything. Nearly every manufacturer plans to beat his competitors by producing an article that is better than that of his rivals, better to look at, easier to handle, more convenient and comfortable, something that panders to the sense of luxury.

In no way has this been more manifest in recent years than in the realm of transport. Automobiles, trains, ships, even airplanes are all designed nowadays to cater to the desire for luxurious travel.

One hundred years ago railway passengers rode in open wagons, sitting on bare planks. Twenty years ago those who could afford automobiles at all had to be content with open bodies. A closed body was only for the millionaire buyer.

There are no open wagons for railway passengers today; not even for cattle.

We are somewhat proud of our rolling stock on this continent. The latest Pullman cars are wonderfully fine and comfortable, yet over in the Old Land they believe, and with some truth, that they are years ahead of us in the matter of comfortable travel on the trains.

A Britisher gets a great laugh out of our sleeping cars. He gasps in surprise when he takes his first night ride over here and finds that he has to tumble in, or climb in, to a sort of bunk, inserting himself onto a ledge or a shelf, as it were, and undress and dress by a feat of contortionism on the bed. "Fifty years behind the times," he mutters to himself as he adjusts himself to the accommodation.

"Over home," he walks to the sleeping car, opens the door of his cabin, has plenty of room to move around and take off his clothes, hangs them up in a cupboard; he can wash in a basin with running water, turn into a real bed, and in the morning he may ring the bell for the attendant to bring him a cup of tea, or even breakfast in bed.

The latest dining cars on British trains remove all suggestion of being on a train at all. They are made to resemble a dining room in a hotel as near as possible. One company has organized a contest for the best designs and decorations of cars that will eliminate the train environment.

Between Paris and London there is the most luxurious train in the world. It is called the "Golden Arrow," and although the English Channel intervenes, the train is practically the same. If anything, the train on the

French side of the water is the more comfortable because the coaches are wider.

The interiors are just as luxurious as the rooms in a swaggar hotel. No need to go to any dining car, either. The waiters bring your dinner to your seat and set it on a folding table. Linking the two trains is a correspondingly luxurious "Golden Arrow" steamer—and you know how luxurious steamers can be.

Our own C.P.R., in keeping with the best traditions of the Cunard and White Star liners, have ships between Montreal and Liverpool and other ports on the other side, which have swimming pools, gymnasiums, nurseries, and ball rooms. The state-rooms are similar to the prettiest rooms in a stately home, with curtained windows instead of port-holes. The dining rooms might be the main dining room of the Royal York Hotel.

Passenger airplanes have Chesterfield chairs, a bar and dining-car service. Only twenty years ago the aerial passengers sat in an open cockpit and hung on for dear life to the stays. Another transition from the open plane to the Pullman type.

And now, the old stage coach has given way to the super bus. Huge buses now career along the highways of the United States and England with upper and lower decks, big, roomy chairs, berths for sleeping in, a smoking room, dining room and ice water always on tap.

With all these things, travel has surely reached the apex of its achievement. The age demands these things and is willing to pay the shot. When we cast our minds back, and think of our forefathers who slept on the decks of an old wind-jammer with a tarpulin over them, in the course of two to three months crossing the Atlantic; of how they heaved the first roads out of the virgin forests and took weeks to transport their families and their belongings a matter of two hundred miles to establish their homes, we ought to have increased respect for their memories and cultivate a more contented spirit among ourselves.

### Holds Coveted Position

#### Mr. Zzyzz Is Last In New York Phone Book

Mr. Zzyzz is a man who interests us. Mr. Zzyzz is not a character in an expressionist play or an obscure Victorian novel by an imitator of Dickens. Mr. Zzyzz is simply the man who is last in the New York phone book. After Zzyzz there is only finis. Being a newcomer to the directory this year, Mr. Zzyzz has drawn some attention to himself, for he has all at once supplanted Mr. Zzyn and Mr. Zzyz. He went the latter one better—one "z" better—and the former was nowhere in lastness beside him. Just what awards and decorations attach to being last in a phone book has never been made clear. But there must be some advantage. One man changed his name from Zzyk to Zzyx in an effort to clinch the place. How vain, indeed, are human wishes. For along came Mr. Zzyzz to ruin Mr. Zzyk's (or Zzyz's) ambition.

Mrs. Bee—"Doesn't your husband mind the long ride in from the office every day?"

Mrs. Gee—"Oh, no; he usually has a new maid along."

"But how did you come to kill the old lady?"

"I will tell you in case it should be useful to you later,"—Moustique, Charleroi.

### Royal York Hotel "Hello" Girls

If a telephone call to the Royal York Hotel brings the response that the line is busy, you can take it for granted that not one but eighty trunk lines are in use. There are 1,300 individual telephones handled by three private exchanges and the twenty-seven young ladies in the photograph operate the main switchboard. They were tested for voice and general disposition and selected out of hundreds of applicants. From your room phone you can call the hotel office, Toronto and out-of-town people and even overseas to Great Britain, as business or friendship requires.

**COURTESY OF THE ROAD**

With two cars coming head-on in a collision last week right in our districts, brings to our attention the lack of courtesy so often met with on the road, and with such a large number of cars continually surging along the roads, this lack of courtesy is much to be deplored as it is often the cause of accidents.

A few of the things that every motorist should avoid are: Hogging the road, going at an unreasonable rate past other cars and letting the headlights glare into the eyes of other motorists. There are also other important rules that should be observed by all motorists, and one of the principal of these is to always pass on the right side of the road.—Taber Times.

**IT REDUCES PRICES**

Some people have always argued that advertising adds to the cost of goods, and that the business house that eliminated this form of expense could afford to sell cheaper.

It is interesting to think what would happen if all at once firm stopped advertising. The result would be that the enterprising and successful store, the one that gets a good trade because it serves the public efficiently, would be unable to hold its position.

A store of that kind could not show enterprise in attracting the public, because the public would not know what it was doing. People would buy in a haphazard way, largely of the stores that happened to be nearest to them. If the enterprising store attempted to handle some big lot at low prices, the public would not know that the goods were there, and the sale would not be a success. This would discourage a man from special attempts to serve the public, and he would run along in a routine way.

The tendency would be for a lot of small stores to spring up, and get the trade away from the enterprising ones that now advertise freely. The public would not know that one store was better than another, and a dealer could charge high prices and the customers would not have the store advertising by which they could tell what prices should be.

Merchants would find that it did not pay to hold special sales as the public would not notice them much if they were held. The constant stream of trade that has been flowing through enterprising stores would dwindle. When a store sees its volume of trade fall off, the charge per article for retail distribution has to be increased. The cost of distributing stuff could be expected to double under such a system, and there would be a lack of the special opportunities by which the thrifty buyer now saves money.

Now that Lacombe is installing water and sewer systems it can be assumed it will take its place in the list of the modern towns in this western province. Eight business houses were destroyed by fire in Telford Saturday last, due to no fire protection. An adequate water system such as Lacombe is to have is the only assurance against such needless loss.

**POLITENESS TO YOUNG**

It has been suggested that the reason why children are not polite to

**LOCAL & GENERAL**

Mr. and Mrs. C. F. Dooley were visitors to Calgary on Monday.

Messrs Fernie and Currie of Jenkin's Groceries are spending this week holidaying at Banff.

Mrs. W. G. Evans and sons Howard and Ellwood are holidaying at Sylvan Lake this week.

Mr. and Mrs. H. W. Chambers and Misses Marie and Edith were visitors to Sylvan Lake Sunday.

Mr. Joe Sharp is spending a two weeks' vacation at his home in Indian Head, Sask.

Mr. A. R. Kendrick returned home on Tuesday after spending a few days at Sylvan Lake.

Mrs. C. J. A. Nissen and child, of Westcott, left Thursday last for Elbow Lake, Minn., for a visit.

Mr. and Mrs. H. Hawkes and son George returned Sunday from a six weeks' sojourn in New Brunswick.

Mr. and Mrs. H. B. McLeod of High River were visitors at the Tighe home in Didsbury, Tuesday last week.

Mr. and Mrs. Colin Craig of Prince Edward Island, who have been visiting at the home of Mr. and Mrs. Stewart Tighe the past week, left for their home in the east on Friday.

Mr. and Mrs. Hans Hermanson of Seattle who have been renewing old time acquaintances in town returned to their home on Tuesday. Mrs. Dan Geiger accompanied them on their return trip.

**WHAT OTHER EDITORS ARE SAYING****WHO IS DESERVING**

Canada is no Utopia as yet. This week a couple with four children arrived in town. They had left their homestead at Lac la Biche, which held no promise for this year, and were trekking southward looking for work that would mean dollars and cents and bread and clothes. Both husband and wife were lean, weather-beaten and active, the working type. They are Canadians, struggling to hold their homestead and keep the family intact. Uncomplainingly they realize the terrible handicap of children in obtaining work. They know that a poor man who has children commits a bad crime, even in a new country. So far they have been able to pay the penalties of their crimes, without crying for help. But times are bad on Lac la Biche and they must have work. Both look capable. The man is a carpenter and a farmer, the woman eager to turn her hand to any work. But they were obliged to keep going south in their search.

At the same time along the highways are hundreds of people, spending money like water, searching for new ways to spend it. True, someone has earned the money, but not necessarily the spenders. Many of them are deadheads in life.

The lumber and construction camps are filled with people who talk in strange tongues, who are not kin to us.

And down in Manitoba, there are settlements of people, so distorted in outlook that they are burning schools and defying the country that provides them with a living.

In Canada, on the one hand are groups of people daring to conspire to destroy public property without being instantly ejected from the country. On the other hand, sturdy decent Canadians are unable to find work to keep themselves and their families self-respecting. This country needs tightening up. — Vulcan Advocate.

parents, is that parents are often not polite to children.

Most parents, though very polite to outsiders, are apt to be very autocratic with children. They would not say, "shut that door, Mrs. Smith," or "that will do, Mrs. Jones, not another word from you," or "put that plate down instantly, Mr. Brown." They would manage to convey their desires in a much more diplomatic manner.

Yet even the best parents are peremptory and stern-toned with children. It is the approved method of getting results.

It would be interesting to note how children might react if treated with the same courtesy as any visitor. They might respond with equal courtesy and politeness. And on the other hand they might not.

Mrs. Burrows spent a few days this week at Exshaw, Alta.

Miss Pearl McNaughton of Vancouver is visiting her parents.

Mr. and Mrs. W. J. Hillyard were Sunday visitors at Sylvan Lake.

Dr. and Mrs. J. L. Clarke and family leave tomorrow on a trip to Seattle, Portland and other coast points.

Mr. C. Rapine of Stettler, a former resident of this district for many years, was a visitor in town on Fair Day.

Misses Bernice McGhee, Jessie McCoy and Dorothy Hugel are attending the annual C.G.I.T. camp at Sylvan Lake.

Mr. Jim McDougall, who has been a patient in the Didsbury General Hospital for the past week, is progressing favorably, as is also Mr. A. H. Dobson, of Elkton.

As the contest for destroying gophers, crows and magpies does not close until Nov. 1st this year, there is still time to get into the prize money.

Mr. and Mrs. Percival Cunningham, their daughters Mabel and Etta, and son, Dave, of Sovereign, Sask., have been visiting their son and brother Bert, west of Didsbury for the past two weeks. During Mr. Cunningham's visit he was so well pleased with this country and crop conditions he purchased a section of land south west of Didsbury. The land was sold through the Reiber Real Estate Office, Didsbury.

**CARD OF THANKS**

Mr. C. A. Foss and daughter, Mrs. Vivian Wilson, desire to thank all those who so kindly sent flowers and those who helped during their recent sad bereavement.

**Here and There**

286.

The contract for a new fast steamship to ply between Saint John and Digby, Nova Scotia, will shortly be awarded by the Canadian Pacific Railway. It has been announced by E. W. Beatty chairman and president of the company. The ship will be of the highest standard, 340 feet in length, capable of carrying 500 passengers, and having 44 state rooms for night service. There will also be accommodation for 50 motor cars. The speed of the vessel will be 72 knots, an unusually high speed for a short trip.

The sap ran freely this spring, but it will have to go some to surpass the record for last year when there was an increase of four million pounds of maple sugar registered by government statisticians. The output was valued at over two million dollars, and Quebec headed the list of provinces as producer, followed by Ontario.

The daily pay-roll of the Canadian Pacific is \$267,000; the daily outlay for material and supplies is \$220,000, and the daily tax bill over \$20,000.

Prince George, Duke of Gloucester, third son of His Majesty, will early in June officially open the great Royal York Hotel of the Canadian Pacific Railway in Toronto. It has been announced by E. W. Beatty, K.C., chairman and president of the company. The building is the tallest in the British Empire, towering 23 storeys above the pavements of the "Queen City."

In a recent Calgary high-school oratorical contest in English candidates in the finals were born respectively in Canada, England, Lithuania, Roumania, and Russia. Of three Edmonton candidates one was of French, one of German, and one of Scotch extraction.

### ITEMS OF INTEREST

According to Friday's Calgary Herald an agreement has been reached with the British Columbia and the Federal governments ensuring the completion of the last stretch of the trans Canada motor highway from Winnipeg to the Coast, lying between Golden and Revelstoke. While the highway is 90 miles longer than the originally projected route through the National Park, it will avoid the danger of snowslides through the mountains and the highway will also be open for a greater period during the year.

Fire, starting in the icehouse of a meat market in Tofield, Alta., destroyed eight buildings early last Saturday morning and the total damage will amount to \$54,000. When the fire started there was no water in the town to stop the spread of the blaze, and on that account there was practically no hope for the business section the most part of which today is a smouldering mass of ruins.

### Church Announcements

#### LUTHERAN CHURCH

Westcott 10:30 a.m. German.  
Didsbury 2:30 p.m. German.  
Didsbury 8 p.m. English.

Morning subject: The saving efforts of  
Christ in the Twentieth Century of time.

Three questions will be considered under  
this heading: (a) What efforts is  
Christ making to save the people of the  
20th century? (b) Are the people of to-  
day better disposed toward Christ than  
were the people of two thousand years  
ago? (c) What must those expect with  
whom every saving effort of Christ has  
totally been in vain?

In the evening the pastor will speak  
on "The House that stands." The texts  
chosen are Matt. 23:37 and Matt. 8:24-  
27 respectively.

#### CHURCH OF ENGLAND

Church services second Sunday of each  
month, 11 a.m., Communion service,  
Rev. H. Clay in charge.

Every fourth Sunday, evening service  
at 7:30.

#### M.B.C. CHURCH

pital is an actuality, the town

### A.P.P. Checking Up Those Who Have No Driver's Licenses

Motorists who have neglected to  
secure driver's licenses are likely to  
be checked up any day now and  
asked to explain why. Police  
throughout the province are mak-  
ing a survey of the situation, gov-  
ernment authorities being of the  
opinion that sufficient time has  
now been given for the automobil-  
ing public, and particularly town  
and city people, to get their licen-  
ses. Some convictions in the near  
future are not improbable.

Up to Tuesday this week, 110,-  
198 drivers licenses have been is-  
sued. Motor licenses to that date  
number 94,281, as compared with  
87,221 for the same period last  
year.

On the back of a London dance  
programme dated 1888, is an appeal  
to gentlemen to refrain from smoking  
as it tended to irritate the musicians.  
In heavy type was added the warn-  
ing:

"Gentlemen must not whirl their  
ladies, for a fluttering skirt and legs  
are not honorable to company."

council having selected a building  
for that purpose.

Mr. and Mrs. J. A. Smith ar-  
rived from Ontario this week and  
are visiting their daughter, Mrs.  
A. A. Perrin.

Miss Margaret Murphy, Seattle;  
Mrs. M. E. Sheridan, Hope, B.C.;  
C. C. Ross and Basil Sheridan,  
Trchu, visited J. Hugets over  
Sunday.

The old guide knows that careless hunters cause  
many forest fires resulting in the destruction of  
excellent hunting grounds as well as valuable  
timber. The good hunter is careful with fire in  
the woods.

Issued by authority of

## Taking Long Hike

Newfoundland Man Making World Trip For \$40,000 Wage

Andre R. McWhyte, a Newfoundland Scout, who two years ago set to do a round-the-world tramp for a wage of \$40,000, has just completed his tour of England and Scotland. Mr. McWhyte, who is 43 years of age, is the son of a Scotsman who emigrated to Newfoundland. Mr. McWhyte hopes to complete his tramp in North America within the next six years. He is carrying equipment weighing 38 pounds, and endeavors to obtain the autograph of the Chief Magistrate or Mayor of every town he passes through. The signature of the Lord Provost of Glasgow is among those in his log-book.

IMPERIAL ECONOMIC  
CONFERENCE

Right Hon. Philip Snowden, chancellor of the exchequer, announced in the House of Commons that communications were going forward to the dominions looking to the summoning of an Imperial Economic Conference. Its purpose, he said, would be consideration of ways and means of extending intra-empire trade.

## The Need Of the Hour

Appears To Be Better Driver Than Better Cars

Good automobile driving is essentially a matter of good manners. They are one and inseparable, suggesting that "distinction without a difference."

If more good manners among motorists would make good drivers, and that would be inevitable, users of the highways and streets would desire nothing more than a great rebirth of chivalry and strict adherence to the rules of etiquette.

Is not the need of the hour better drivers rather than better motor cars?—Montreal Herald.

Miller's Worm Powders are a pleasant medicine for worm-infested children, and they will take it without objection. When directions are followed it will not injure the most delicate child, as there is nothing of an injurious nature in its composition. They will speedily rid a child of worms and restore the health of the little sufferers whose vitality has become impaired by the attacks of these internal pests.

## Information Wanted

"Suppose, Bessie," (the teacher was trying to explain the meaning of recuperate), "suppose your papa has worked very hard all day; he is tired and worn out, isn't he?"

"Yes, teacher."

"Then when night comes and his work is over for the day, what does he do?"

"That's just what mother wants to know," replied Bessie.

## Minard's Liniment for Neuralgia.

Women first appeared on the stage during the latter part of the seventeenth century.

Dairy Products Very  
Necessary In Diet

Have Helped Make Canadians Healthy and Alert, Says Mr. Tobey

Mr. J. A. Tobey, until recently secretary of the United States National Health Council, associate editor of the American Journal of Public Health, writing in the American Mercury has drawn attention to some of the little-thought-of values of milk in the human diet. He states that the more milk we drink the longer we live—that the longest lived races have been those which have consumed the greatest amount of milk and milk products, and the shortest lived those who used cereal grains and a good deal of meat. Goat's milk and vegetables would be almost an ideal diet if a person's chief aim were to live long, but as other considerations crop up in the course of a lifetime we cannot expect many persons to confine themselves to these rations alone.

Mr. Tobey makes an interesting remark to illustrate the connection of diet to health when he says: "When the American revolution occurred a number of the English colonists chose to remain loyal to the Mother Country, even though the maternal care had been somewhat lacking in political nourishment. Some of these colonists departed for Canada, while their cousins migrated to the Bahamas. Both groups were of the same stock and their characteristics were then similar, but today a vast difference is visible in their descendants. The Canadians are an active, virile people whose mental alertness is shown, among other ways, by the fact that they are most emphatic in declaring, with sidelong glances at their friendly neighbor to the south, that they expect to be perpetually independent. The Bahamas are said to be distinctly indolent and easy going. Now, this dissimilarity may be attributed to marked climate differences and in fact it has been accounted for on that ground by Prof. Elsworth Huntington, the geographer. On the other hand, Dr. E. V. McCollum, of the Johns Hopkins University, calls attention to the fact that besides the cold and invigorating climate of Canada, the Canadian diet is rich in milk, butter, cream and cheese, in addition to cereals, legume seeds, tubers and meats. The Bahamas, in their enervating climate, partake of fruits and certain vegetables, but seldom use dairy products."

## Peace River Crop

Wheat production in the Peace River District may reach 10,000,000 bushels this year, barring frost and hail, according to L. A. Giroux, M.L.A., who is back from that region. He expressed his belief that the crop of wheat will be the best in twelve years.

**Mothers Value This Oil.**—Mothers who know how suddenly croup may seize their children and how necessary prompt action is in applying relief, always keep at hand a supply of Dr. Thomas' Electric Oil, because experience has taught them that this is an excellent preparation for the treatment of this ailment. And they are wise, for its various uses render it a valuable medicine.

## Salt In the Oceans

The five great oceans cover an area of about 140,000,000 square miles, and if all the salt content could be extracted and dried, it would cover the whole earth to a depth of more than 100 feet.

New Wonders  
Of the Air

Amazing Development Shown In Planes Now Under Construction

With aeroplanes that travel at a speed of over three hundred and fifty miles an hour and giant air ships that house restaurants and ballrooms, few of us dare probe into the future of aviation. Every day sees some great new wonder of the air, and here are a few that we may expect in the course of the next few months.

A colossal flying hotel, with even more room and comfort than the Graf Zeppelin, is being built in Germany. With accommodation for eighty passengers, the aeroplane will weigh fifty tons and will be four times larger than any machine yet constructed.

Work has been already commenced on a huge air liner which is to carry fifty passengers. Some idea of the size of the new machine is obtained when it is learned that the passengers will travel in the wings, which are to be eight feet thick.

A seaplane measuring one hundred feet from wing-tip to wing-tip has already passed its flying trials in America. With accommodation for thirty-two passengers, it has been built to compete against the huge new European flying boat.

Interesting Exhibit By  
Experimental Farms

Several New Features Seen On Western Fair Circuit

Several new features were seen in the exhibit from the Dominion Experimental Farm on the Western Fair circuit.

The animal husbandry section consists of a central device which points out the relation between high milk production per cow, and low milk production per 100 lb. on the other. This information is accentuated by photographing of dairy cows with legends calling attention to the fact that the high producing and low producing cows can only be determined by the use of the milk scales and Babcock test. On the tables are shown types of suitable milk scales and also a Babcock test outfit with instructions for use, milk recording sheets and case, etc.—in fact, everything necessary to conduct the testing of a herd of cows for milk and fat production.

The botanical section of the exhibit illustrates, by means of rusted plant material and otherwise, the life cycle of the stem rust organism. It shows the types of injury caused to the living plant, and the effects of the rust on the grain. Another phase of the exhibit is a demonstration of the methods used in controlling stem rust. This shows the effectiveness of sulphur dusting as a measure for the prevention of rust, and likewise the results which are being achieved by the plant breeders in developing rust resistant varieties of wheat and oats.

Chief—You want time off to be married? You only returned from holidays yesterday. Why didn't you get married then?"

"I didn't know the lady then."

**It Testifies For Itself.**—Dr. Thomas' Electric Oil needs no testimonial of its powers other than itself. Whoever tries it for coughs or colds, for cuts or contusions, for sprains or burns, for pains in the limbs or body, well know that medicine proves itself and needs no guarantee. This shows why this Oil is in general use.

"Should we be happier if women ruled?" asks a writer. The question is, are we?

"Why did you cut the throat of the prima donna?"

"I was told she had a fortune in her throat."—Moustique, Charleroi.

## Finest Limited Train on Continent

This is how the Trans-Canada appears as she leaves Montreal each evening. The all-steel equipment of this train, which was built at the Angus Shops of the Canadian Pacific Railway is epitomized in the Solarium car which is carried at the rear end. With a vita-glazed solarium, two shower baths, men's and ladies' smoking room and a large observation-lounge, this car is the most luxurious to operate over Canadian lines and is open in its entirety to patrons of the Trans-Canada Limited.

IT'S folly to suffer long from neuritis, neuralgia, or headaches when relief is swift and sure, thanks to Aspirin. For 28 years the medical profession has recommended it. It does not affect the heart. Take it for colds, rheumatism, sciatica, lumbago. Gargle it for a sore throat or tonsillitis. Proven directions for its many uses, in every package. Every drug store today has genuine Aspirin which is readily identified by the name on the box and the Bayer cross on every tablet.

## The Singing Fool

By HUBERT DAIL  
Copyright, 1932, Warner Bros. Pictures, Inc.

### SYNOPSIS

Marcus, the famous Broadway producer, takes a party of four to Blackie Joe's New York night club. Al Stone, Blackie's chief comedian and singing waiter, is desperately in love with Molly, the ballad singer, and begs her to read a song he has written for her. After scornfully refusing and telling him she will never marry a waiter she goes to the Marcus table and tries to ingratiate herself with the great producer. Blackie seeing Al dejected, urges him to sing the song himself — to Molly. Al says he can't sing a love ballad, but finally he consents. Grace, the cigarette girl, who is deeply and unselfishly in love with Al, encourages him.

### CHAPTER VI.

The room was filled with careless chatter as Al took his place beside the pianist, at the edge of the dance floor, to sing the heart song he had written to Molly. No one in the gay crowd seemed to notice him; no one except himself, Blackie Joe and Grace knew that the next few moments meant to him success or failure with the girl he loved. He was plainly nervous at trying a ballad; his face went white and one hand gripped the side of the piano.

The pianist struck the opening bars and Al began the verse, haltingly but determinedly. He had located the one face he wanted to keep before his eyes throughout the song—Molly's. But Molly was busy talking to Marcus; she didn't even know Al was singing.

As he continued the people at the tables nearest him stopped talking and gave him their attention. Then

## Had Diarrhoea Bowels So Active Feared For His Life

Mrs. S. J. Jago, Canobie, N.B., writes:—"My little boy, when three years old, had a severe attack of diarrhoea. The bowels were so active, and he vomited so much, I feared for his life. I tried many medicines, but he was always getting worse. A friend told me of

and after the second dose I saw an improvement. I gave him almost half a bottle and he was completely relieved. "I have used it for the other children, and my husband and myself. My husband gives it great praise, and when he goes away from home to work he always takes a bottle with him."

Put up only by The T. Milburn Co., Ltd., Toronto, Ont.

W. N. U. 1796

It seemed as if he caught the merry-makers a little farther away and they, too, became silent. He was singing as he had never sung before, throwing his whole soul into the words.

When he finished the verse and swung into the chorus the pianist whispered up at him, "Good boy, Al!" And as the pianist ran his fingers swiftly up and down the ivories he marvelled at this singing waiter who had been a comedian up until this moment and now suddenly unleashed a voice vibrating with sentimental appeal.

Al relaxed when he reached the chorus. It was the chorus that would put him over or reveal him as a failure to Molly, but he felt it so deeply that he seemed to sing it without effort. Every person in the audience was blocked out from his vision except Molly—her vivacious face stood out alone in a sea of darkness. Yet he could not help but see that she was still talking to Marcus. She, among all the listeners in that big room, seemed to be heedless of his presence.

But as she whispered to Marcus a strange thing happened. The astute revue producer heard the song and, although he hadn't paid much attention to it at first, now he suddenly became all interest. His hand came up in a quick gesture, demanding silence, from her. He whispered curtly:

"Sh'h! I want to hear this."

It was the first time that evening he had flattered the floor show by the least bit of attention, so Molly was astonished. She followed his gaze, fixed on Al, and she, too, began to listen. At first she sent a glance of amusement Al's way—what did that comic waiter mean by trying a ballad? Then, after a moment, Molly also realized that Al was putting some new quality into the song. It was as if he had discarded the ordinary technique of ballad singing, and was creating his own method, the supremely natural method, as he went along. At times his voice dropped to a low, pleading croon; again he talked the words with all the fire at his command; and now his voice suddenly rose to a startling and passionate crescendo of appeal. Molly was not stupid; she realized that the singing waiter she had scorned so recently was really creating a living song. Like the call of fate his full, resonant voice repeated the title—"Always"—which occurred so frequently in the ballad. She stole a look at Marcus; he was leaning forward, giving Al his rapt attention.

As Al felt Molly's eyes on him the floodgates of his soul opened and, to all intents and purposes, he was alone with her, adoring her, telling her of his love that would last—always. He thought the song was going home—it seemed to him her eyes grew gentle.

But the person most deeply affected was Grace, the cigarette girl. She stood, quietly leaning against the wall at the back of the room and, in the semi-darkness, no one saw the tears come to her eyes and trickle, unheeded, down her pretty cheeks. Oh, what wouldn't she have given to have Al sing that song, in that way, to her! Everything she possessed, her life itself!

Now for the first time she realized with what passionate devotion she loved him. Her lovely young bosom rose and fell rapidly and in her heart was a consistent stabbing ache that seemed to grow more intense with every word Al uttered. Dear little Grace, so loyal and so lovely, yet forced to stand aside unnoticed and see another woman, who didn't appreciate Al Stone, receive the homage that he tossed so eloquently at her feet. It was maddening to Grace but—there was nothing to be done about it except go on loving him and endure the pain in her heart.

Now she saw Blackie Joe approaching. She furtively tried to dry her tears. Blackie saw and understood her feeling at first glance but, like the good, understanding fellow he was, pretended not to notice. "Poor kid," he thought. "Well . . . that's the way it goes." Then he turned to Grace and whispered confidentially:

"Our comic's not so bad after all, is he?"

Grace looked up and forced herself to smile happily.

"He's wonderful!"

Finally the last notes of the

## Instant Relief! Corns Sore Foot Lumps PUTNAM'S Corn Extractor

music died away—the song was ended. Al stood for a moment as if in a trance, then quickly turned and walked toward the dressing rooms. The room was as silent as a desert night, not a crackle of applause broke the stillness. Al's chin came down on his chest; he felt he had failed and he wanted to get out of the room as quickly as possible.

At the Marcus table Molly's eyes were fixed on his retreating figure. She was obviously affected, a faint stir that she didn't understand had risen in her heart. At any rate, she knew what Al meant now.

The reaction of Marcus to the song was decidedly different. He saw it as a piece of work, a medium for thrilling audiences. Turning to Molly he almost shouted: "That's—a—song! One of the best ballads I've heard!"

In a flash Molly realized that Al had a real hit, a heart-throb number that might put him over on Broadway and make him famous. Her eyes became intensely brilliant; she was thinking fast.

As Al approached the dressing room doorway he encountered Grace and Blackie. Swiftly he spoke:

"You see, it's no use—I knew I couldn't put over a ballad. For a moment it seemed I had Molly interested, but I couldn't hold her. And not a peep from the crowd—"

But Al stopped, dazed. From the crowd came the slow rise of applause. They had been too closely held by the song to give vent to their emotions as he walked rapidly away, but now their feelings were released in a storm of appreciation. He had reached every one of them and their strenuous hand-clapping rode toward him like a great wave. They had never given him such a reception before.

As he swung about, facing them, his dejected look passed, and a smile crossed his features. Then he saw Molly's face turned toward him, while Marcus rose, leading the thunderous applause.

At Marcus's table Molly heard the celebrated producer say:

"That waiter's a singing fool—he's great! And who wrote that song? I want it for my revue."

Not for a moment did Molly doubt now. Al's future was assured, with the great Marcus determined to have his song. She began to lay her plans swiftly.

"The waiter wrote it," she answered. "The boy who just sang."

"The waiter wrote it?" repeated Marcus, amazed.

"Yes, but—" Molly smiled coolly—"I gave him the idea."

(To Be Continued.)

### Tracing Sea Currents

British Meteorological Office Securing Data By Drift Of Bottles

After having floated 2,500 miles in 434 days at sea, a bottle was recently picked up at North Queensland. It had been dropped overboard on October 7, 1927, by a British vessel while in a most desolate part of the Pacific Ocean, 1,000 miles north of the Fiji Islands. In it was a message asking that it be returned to the Meteorological office of the British air ministry, which is having 494 ships sailing the seven seas drop similar bottles every day in a plan of securing data to be used in tracking sea currents.

### Growing Sugar Beats and Tobacco

Not only is the sugar-beet industry being tried out on quite a scale in the Sumas district, British Columbia, this season, but there will be considerable area of these reclaimed land devoted to the growing of tobacco.

### Good For Many Years

Although the sun is burning itself up at the rate of 250,000,000 tons a minute, says a European scientist, it is so large that it will not be reduced to the size of the earth for approximately 100,000,000 years.

Minard's Liniment for aching joints.

### Adopting Western Ideas

Chinese Youth Have Good Times But Still Respect Parents

Although they may not say "Whoopie" in China, the modern Chinese youth makes it, and they call it "Poowhee." "The younger generation in South China, are reaching for and adopting Western ideas," said G. P. Hamsworth, general agent of the Canadian National at Hong Kong, who passed through Winnipeg on his way to Hong Kong after spending a holiday in Europe and England.

"At the better entertainment places," continued Mr. Hamsworth, "you see the modern Chinese flapper with short skirts, bobbed hair and silk stockings, while the boys wear double-breasted suits and wide pants. They dance fox trots to our music, and have adopted English foods and eat it the way we eat it. The young people are also very fond of movies and Hong Kong and Shanghai have excellent theatres.

In spite of this change to Western ideas, it is very noticeable that the respect and admiration which the Chinese youth holds for his parents and older people is not disappearing."

### SAVE THE CHILDREN

In Summer When Childhood Ailments Are Most Dangerous

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer, in most cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets relieve these troubles, or if given occasionally to the well child they will prevent their coming on. The Tablets are guaranteed to be absolutely harmless even to the new-born babe. They are especially good in summer because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Will Prospect North

H. M. Eakins, Toronto, arrived in Edmonton recently en route to the north country in charge of a group of prospectors who are going in for Dominion Explorers, Ltd. Waterways will be used as a base by the party, said Mr. Eakins.

### Paper That Would Last

The suggestion that some copies of all modern newspapers be printed on linen for purposes of permanently recording valuable news of the time was made at the annual meeting of the Canadian Historical Society.

## Minister, Run-down in Health, Gains 7 lbs. in 3 Weeks

Rev. W. H. Taylor writes, "After a 7 weeks' revival campaign I was entirely run-down and losing flesh rapidly. I decided to give Ironized Yeast a 3 weeks' trial. After 2 weeks I found my strength returning and the tired feeling gone. In 3 weeks I had gained 7 lbs. and was myself again."

Imagine just 3 weeks to change from a "skinny," tired person to a strong, well-filled-out man or woman. Ugly hollows vanish. Broomstick limbs become round and chubby. Tired feeling disappears. Blemished skin clears.

Only when Yeast is Ironized is it more effective—for Iron is needed to bring out the weight-building and strengthening values of Yeast. Pleasant-tasting tablets. Safe for everybody. Never cause gas or bloating, no harmful drugs.

Go to any druggist today and get a full size treatment of Ironized Yeast. If after this generous trial you are not delighted, get your money back from druggist or manufacturer. If inconvenient to buy from druggist, send \$1.25 direct to Canadian Ironized Yeast Co., Ltd., Fort Erie, Ont., Desk 426-BX.

### Little Helps For This Week

"Hearken unto the voice of my cry, my King and my God; for unto Thee will I pray."—Psalm v. 2.

Lord! who art merciful as well as just, Incline Thine ear to me, a child of dust.

Not what I would, O Lord, I offer Thee.

Alas! but what I am.

Father Almighty, who hast made me man, And bade me look to heaven, for Thou art there, Accept my sacrifice and humble prayer.

Four things which are not in Thy treasury I lay before Thee, Lord, with this petition,—

My nothingness, my wants, My sins, and my contrition.

—Robert Southey.

The man who can pray truly is richer and more blessed than all others.—Crysostom.

Paring a corn is both risky and ineffective. It is much better to use Holloway's Corn Remover and eradicate them entirely.

### Miette Hot Springs

The waters of Miette Hot Springs in Jasper National Park, Alberta, resemble those of the Sulphur springs at Banff, but are several degrees hotter. These springs are situated about 12 miles from the railway and are reached by a good trail.

Every shadow in life is evidence of a sun somewhere.

## Foods Stay Fresh Longer This Way

Covered with Para-Sani Heavy Waxed Paper goods that usually stale in a day or so stay fresh for quite a long time. Try it. Get Para-Sani in the handy, sanitary, knife-edged carton at grocer, druggist or stationer. For less exacting uses get "Centre Pull" Packs in sheet form.

Expects Every Pool Member  
Will Do His Duty."**

If At All Possible

**DELIVER ALL POOL WHEAT  
TO POOL ELEVATORS**

Pool elevators can handle Ninety Per Cent. of all Pool Wheat.

With a short crop this year it is imperative that Pool elevators should handle as much grain as possible.

Pool members' safety and the protection of the Six Million Dollars invested in Pool facilities demands that every possible bushel of Pool wheat that can be delivered to a Pool elevator should go there.

(Two cents a bushel farm storage will be paid on all Pool wheat held on farms until December 2nd, 1929.)

**Many Changes In  
1929 Curriculum  
For High Schools**

(Continued from Page 1)

lightened: all four literature units have had the amount of memory work reduced. Composition 3 has a new shortened text book for the grammar section. In geometry 1 and 2 little used propositions have been omitted. In geometry 3 there is a new text which follows in detail the outline in the course of study. In algebra several chapters have been omitted.

The work in general science and chemistry 1 has been made more specific. In latin 1 the amount of grammar required has been reduced, and in latin 2 prose has been subjected for poetry. French 2 has been lightened by reducing the number of irregular verbs required and dropping the Ontario reader. Work both in art 1 and 2 has been simplified and made more definite.

Certain changes have been made in the three units of German and physics 1, which will reduce them slightly. History 2, 3 and 4 have all been appreciably shortened. Certain highly technical sections have been dropped from physics 2 and trigonometry 1. Required reading in latin 3 has been reduced.
